"Carlo Urbani" Award 2019 - 4th edition

The Carlo Urbani Italian Association Onlus (AICU), with the sponsorship of the Municipality of Castelplanio and the University of Camerino, announces for the year 2019 the fourth edition of the "Carlo Urbani" Award, dedicated to the memory of doctor Carlo Urbani, physician and parasitologist, specialized in the control of parasitic and infectious diseases in developing countries.

The "Carlo Urbani" Award 2019 edition consists of a total contribution of Euro 15,000 divided into three distinct actions, hereinafter referred to as project A, B and C:

> Project A* Scolarship of 5,000 Euro to support Intersos community clinic in Rome.

Participants: Graduates in Medicine with preferable specialization in general medicine / pediatrics / infectious diseases / public health or Graduates in anthropology with specialization in medical anthropology

Place of work: INTERSOS24 community clinic in Rome and its mobile unit.

Project context: The INTERSOS24 Community Clinic, located in the south-eastern suburbs of Rome, is connoted as a center for promoting cross-cultural health. Being the clinic a privileged observatory of the health needs of the population facing the greatest difficulties, it also offers general and specialized medical examinations (gynecology, breast and mental health) and orientation to local health and social services. The focus is on the most fragile population due to socio-economic and / or cultural conditions. The area covered is Torre Spaccata neighborhood, inside the Town Hall VI - ASL RM2: it is a variegated neighborhood in its socio-economic condition, due to the lack of spaces for social aggregation and cultural incentives. In this framework, the outpatient clinic is characterized as a space of connection between health and social services and the most fragile population, facilitating accessibility and usability of primary care services (general medicine, Mental Health Center, Counseling) acting as a concrete answer to basic needs.

Main objectives:
1) Quantitative-qualitative mapping of the usability and accessibility of general practitioners and / or Primary Health Care services in the territory covered by the RM2 ASL in a cross-cultural and equity perspective;
2) Implement medical activities of INTERSOS 24 clinic;
3) Facilitate the social-health orientation to the services of the area.

Period: 1st June 2019 - 30th November 2019 (subject to change based on the availability of the candidates)

*** Details on the Terms of References of each position may be requested at the following email address: aicu@pec.it**

> Project B ** Scholarship of 5,000 Euro, sponsored by the University of Camerino, to cover travel, accommodation expenses and use of the Public Health Laboratory (PHL) - Ivo de Carneri Foundation - Pemba, Tanzania , to be assigned to a Doctor / Biologist / Nurse, for a three-month training internship, with the aim of encouraging future work experience in these areas.

Participants: Graduates in Biological Sciences, Nursing Sciences or Medicine and Surgery and who have a particular interest in infectious and parasitic diseases as a public health problem in underdeveloped areas.

Place of work: "Ivo de Carneri" Public Health Laboratory (PHL-IdC), Pemba, Tanzania.

Main objectives: to acquire knowledge in Tropical Medicine and Public Health in an area with low resources such as sub-Saharan Africa; understand the role of a public health center on site and therefore gain experience in the environment itself.

Period: 1st June 2019 - 31st August 2019 (subject to change based on the availability of the candidates)

> Project C* Scholarship of 5.000 Euro** to support the Comme Nous Senegal project through Come Noi (Torino).

Participants: Graduates in Medicine and Surgery with preferable specialization in general medicine / pediatrics / infectious diseases / public health - Senegalese nationality.

Place of work: Senegal, city of Mbour and periodic visits to selected villages

Project context: Senegal is a developing country (No. 164 of HDI) with a fragile health system and with costs mainly paid by users. Health services, mostly paid, are accessible in urban areas and limited in rural areas. The project aims to improve access to health care for the poorest population and vulnerable groups in the urban area, and to reach remote villages for the lack of health structures / staff. The project is managed by Comme Nous Senegal, a small local NGO composed of Senegalese teachers and doctors who offer their contribution on a voluntary basis. Come Noi (Turin) supervises and supports some Comme Nous Senegal projects with technical and financial support.

Main objectives:
1)Support to the health activities of Comme Nous Senegal.
2)Contribution to the management of the medical clinic in the health center of Mbour for visits to indigent patients and street children (Talibè).
3)Participation in periodic medical examinations in rural villages with little access to health services.
Period: 1st June 2019 - 31st December 2019. (subject to change based on the availability of the candidates)

* Details on the Terms of References of each position may be requested at the following email address: aicu@pec.it
